About MKC Global Logistics

MKC Global Logistics is a freight forwarding and customs clearance company founded in 2014, with its head office at 14 El Horreya Road, Alexandria, Egypt. We move sea and air freight from the European Union, the United Kingdom and the United States into Egypt, and we handle the full customs process on arrival. Offices and agents: Alexandria (HQ), Cairo, Port Said, Rotterdam (agent), Felixstowe (agent). Office hours are Sunday to Thursday, 09:00 to 18:00 EET. Closed Friday and Saturday. General enquiries: info@mkcglobal.example, +20 3 555 0142.

Services we provide

Full container load (FCL) sea freight. Less than container load (LCL) consolidation, sailing weekly from Rotterdam, Felixstowe, Barcelona and Valencia. Air freight for urgent and temperature-controlled cargo. Egyptian import customs clearance including ACID registration and MRN handling. Inland trucking from all five ports to any governorate in Egypt. Warehousing and short-term bonded storage at Alexandria and Port Said. Cargo insurance arranged on request at 0.35 percent of CIF value, minimum 45 USD.

Ports we serve

We accept cargo originating anywhere in the European Union, the United Kingdom and the United States. Common origin ports are Rotterdam, Antwerp, Hamburg, Felixstowe, London Gateway, Barcelona, Valencia, Genoa, New York and New Jersey, Savannah and Los Angeles. In Egypt we deliver to exactly five destination ports: Alexandria Port including El Dekheila, Port Said, Damietta Port, Ain Sokhna Port and Suez Port. We do not currently serve any other Egyptian port, and we do not handle exports out of Egypt.

Documents required for an import booking

To open a booking we need: the commercial invoice, the packing list, the ACID number registered on the Egyptian Nafeza single window, the MRN from the export country, the bill of lading or air waybill, and a certificate of origin. For vehicles and machinery we also need the vehicle registration document, chassis and engine numbers, and the manufacturer specification sheet. For food, cosmetics and pharmaceuticals we additionally need a health certificate and a free sale certificate. The ACID must be issued before the goods are shipped; cargo that arrives without a valid ACID cannot be cleared and will accrue demurrage.

The ACID and MRN process

ACID stands for Advance Cargo Information Declaration. The Egyptian importer registers the shipment on the Nafeza platform and receives a 19 digit ACID number, which must be sent to the exporter before loading. The MRN, or Movement Reference Number, is issued by customs in the export country when the export declaration is lodged. Both numbers must appear on the shipping documents. If the consignee details on the MRN do not match the ACID registration, customs will reject the declaration and the shipment goes on hold until a corrected document is filed. Corrections normally take one to three working days.

Transit times

Typical port to port transit times: Rotterdam to Alexandria 11 to 13 days. Felixstowe to Port Said 12 to 14 days. Antwerp to Alexandria 11 to 13 days. Hamburg to Ain Sokhna 13 to 15 days. Barcelona or Valencia to Damietta 7 to 9 days. Genoa to Ain Sokhna 12 to 14 days. New York to Damietta 16 to 19 days. Savannah to Suez 20 to 23 days. Los Angeles to Suez 25 to 28 days. Air freight from any European hub is one to two days. Add three to seven working days for customs clearance and inland delivery. These are indicative and depend on the sailing schedule and on customs.

Payment terms

New customers pay in advance by bank transfer before the container is released. Approved account customers have 30 day credit terms after three completed shipments. We accept bank transfer in USD or EUR and local transfer in EGP. We do not accept cash or personal cheques. Invoices are issued on booking confirmation and again on arrival for local charges. Demurrage and detention are billed at cost plus a 10 percent handling fee. Proof of payment should be emailed to accounts@mkcglobal.example quoting the shipment reference.

Booking cut-off times

For FCL, the documentation cut-off is 72 hours before vessel departure and the physical cargo cut-off is 48 hours before departure. For LCL, cargo must reach the consolidation warehouse 5 working days before the sailing. For air freight, the cut-off is 6 hours before flight departure. Bookings received after the cut-off roll to the next available sailing.

Tracking your shipment

You can track using any one of four references: the MKC shipment number in the format MKC-24001, the ACID number, the bill of lading number, or the container number. Status is updated automatically when the shipping line publishes a milestone, and manually by our Tracking Desk for customs and delivery events. If a shipment shows as on hold, the reason is recorded in the event history and our Customs Documentation team will already have contacted the shipper.

Departments and who to contact

Booking Operations: New bookings, space confirmation, cargo ready dates. Email bookings@mkcglobal.example, phone +20 3 555 0143. Accounts & Payments: Invoices, proof of payment, credit terms. Email accounts@mkcglobal.example, phone +20 3 555 0144. Tracking Desk: Vessel schedules, ETA changes, container status. Email tracking@mkcglobal.example, phone +20 3 555 0145. Customs Documentation: ACID, MRN, HS codes, inspection support. Email customs@mkcglobal.example, phone +20 3 555 0146. Customer Care: Complaints, general questions, anything else. Email care@mkcglobal.example, phone +20 3 555 0147.

Claims and complaints

Damage or shortage claims must be notified within 3 days of delivery, with photographs and the signed proof of delivery noting the damage. Claims are filed with the carrier and typically settle in 30 to 60 days. Liability is limited to 2 SDR per kilogram under the Hague-Visby rules unless separate cargo insurance was purchased. Complaints about service go to Customer Care and receive a first response within one working day.
